Type 1 Pin Plug

**Product Name:**

Type 1 Pin Plug

Part Number:

Refer to Conco Standard Size Chart for Type 1 Pin Plugs

Application:

For permanent plugging of condenser and heat exchanger tubes and tubesheet holes. Can be used in some high temperature/pressure heat exchangers.

Description:

- Machined one piece tapered design to fit specified size tubes.
- One piece plugs are easily installed, safe to use.
- Available in Brass, Bronze, Stainless, Carbon Steels and Titanium.
- Special materials available upon request.
- Can be machined to your drawing specifications.

Storage Information:

Store in cool, dry place.

Auxiliary Equipment Required:

Hammer.

Determination of Quantity

Two for each tube or tubesheet to be plugged (one for each end).
